

June is a massive month for Learning Alternatives! At this time of year, staff and students are working hard together to close out courses and, for some, solidify graduation. We believe in celebrating accomplishments in the present, while also planning for the future. Staff encourage students to check in with their teachers and begin to make plans for the coming 2019/2020 school year.

NEW REGISTRATION PACKAGES are circulating and need to be completed to best prepare our school moving forward. Students are working during class time to complete these packages with teachers but may require signatures and other information from families. Please inquire with Learning Alternatives if you have any questions or comments.
